## Key Questions

- How can you create different painting effects?
- How has the artist achieved the effects?
- What is impressionist art?
- What is your response Claude Monet's artwork?

## Artist Claude Monet

He was a French painter who was born in Paris in 1840 and died in 1926.

He was an impressionist painter.

These artists used thick layers of paint and fast brush strokes.

Impressionists did not want to paint a realistic picture but an 'impression' of what they could see.

Following years of travelling, Monet settled in Giverny, France. It was here that he painted the water lilies and bridge in his water garden.

During the First World War, Monet painted a series of weeping willow trees to represent fallen French soldiers.

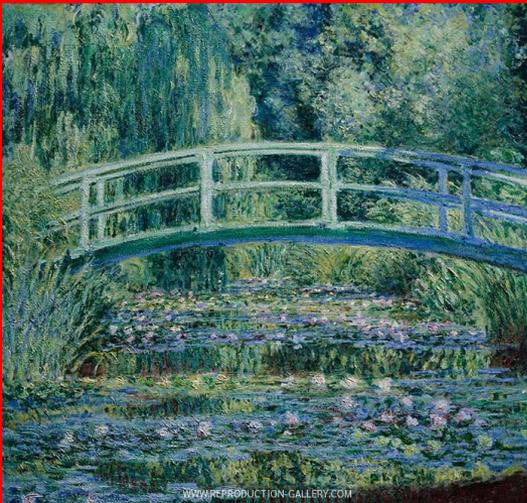

Key words	Explanation
tertiary	A colour made by mixing a primary and secondary colour together.
tone	Where an artist adds grey to a colour.
tint	Where an artist adds white to create a lighter version of the colour.
shade	Where an artist adds black to a colour to darken it down.
